Re: GSO Mexico

After further communication between our attorneys and the attorneys for Mexican General Service Board, as well as between GSO and GSO Mexico, it has been clarified that a letter as per the attached should suffice to permit the Mexican General Service Board to proceed as is authorized by the License Agreement that we gave them. Please note that the letter does not ask them to proceed but simply states that we have "no objection" to their taking action.

The Mexican General Service Board meets on February 26 and they would very much like to have the letter from us as it will be their last meeting before the Mexican General Service conference. Their Conference, last year, asked the Board to take appropriate steps to protect copyrighted material. Tom or I will try to be in touch with each of you. If there appears to be a problem, we can try to arrange a conference call. We would, in any event, like to have a definite response to our Mexican friends by the end of next week.
