Dear Mr. Gillen: Good morning!

First of all I want to say help and thanks a lot for your valuable gift of Big Books. This is the most kind of you and most fortunate too, for our AA literature was confiscated by the Mexican police, as a step from court in a criminal lawsuit from another AA structure in Mexico. Denny Bauer in Minnesota has talked to me about you and himself is going to carry these books for us after Thanksgiving, when he'll be visiting us in a Service Forum in Cuernavaca, sixty miles from Mexico City.

I tried to call you up last night (at about 4:00 your time) but wasn't lucky enough to get in touch with you even through number 639-0020, which I got from your recording.

Our struggle toward a solution is being pretty much a juggernaut for we've never-as an AA service structure- have thought of amassing money to fight in courts, but our scarce resources have only been aimed to reach the still-suffering alcoholic. However, God in His mercy has sent to us a beam of light through you and Dennis. We actually feel that this mess within AA as a whole will be corrected through His justice and love. Please, Mr. Gillen, let's keep in touch for you've become a very dear friend of ours. And also your comments and experience in handling your actions in New York will be most welcome and beneficial to us.

Yours in love and service
