Dear Sir or Madam,

Thank you for the use of the two volumes produced by your company. I am finished with them and I am returning them to you. A cross section of AA's in the state of Vermont had the opportunity to review these volumes. The overwhelming majority of people I talked to were in favor of continued support and purchase of books and materials produced by AAWS. The lower price you offer was no an attraction, members felt very comfortable with the idea that part of the price of a BIG BOOK goes to support the work of AAWS and GSO. Members felt that drunks who can find the means to satisfy there addiction, can find the means to advance the cure. Reviewers felt your books were of poor quality, looked very tacky and did not "feel" like a BIG BOOK. In closing I will be tactfully blunt, most agreed that what you are doing seems very sleazy.

Yours truly,
/s=H Douse
